Dear Person,

Please regulate the violence in children's  
(and adult) television programming. We  
don't want to see guns or weapons of  
any kind.

Please enforce the 1990 Children's Television  
Act requiring broadcastes to air educational  
and informational programming.

Finally, please regulate the host of adver-  
tisements for weapon toys and sugared  
cereals and drinks ~~with~~ that are detrimental to  
children's health.

Thank you - K. Stroud

Washington, D.C. 20554

Gentlemen:

We are writing to you to ask for strict enforcement of the 1990 Children's Television Act. We have seen so many reports lately on the detrimental effects that violence and sex via the T.V. have on our children. You can't turn on any station (accept the Disney Channel) that doesn't spew this garbage out! We try to keep our children's viewing down to a minimum these days, but it is still difficult to turn on any "childrens" program and not get hit with the violence, and the sex on the commercials. Let's get more real educational programs on and clean up our children's minds - after all, they are the future.

Sincerely yours,
